them. Thank you for the lessons. From the preceding you have a better picture of what I am trying to do here in the United States. God bless you!! I probably lost the plot at the end of the US AND ME THEREFORE WAR BUT I hope you got the message and what I was trying to say with what I have been sharing in my earlier messages. You could find these messages on Facebook. Why not look for the name 'Living On Mars'. I am sure you will find it by Sunday morning. If you want to know what this whole world war and US trying to do in the US is all about please look at this post. The Internet is evolving rapidly, and these videos can easily be done with software that's already available to anyone. For all my credentials as a special effects artist and guru, I'm just a guy. And although it's taken a long time to realize, it's becoming more and more apparent. Fortunately, there's also an upside to this. I haven't really been laying out my career on this site, and I don't want to have to go back over my history (whatever

The Burn and Dodge tools allow you to create more realism and control over an image. They can be used to add highlights and shadows.
